**A guide to new products
& information**

**Spring 2010
March-April**

April 2010 is the month of “business is improving” thats the words we are hearing from our North American EMGO distributors.

For EMGO April 2010 has come out better than 2009. Most of us in the motorcycle business have let the inventory carry over and pre-season 2010 orders run a little on the lean side. So, now the rush is on to get everything back online to cover the run up to the business and riding season coming up.

For 2009, EMGO business had a change from direct drop ship orders... to more Atlanta warehouse orders/shipments. The dollar volume was about the same, but the number of shipments was more than double and the value of each shipment was much less. This has added to our warehouse operation costs/expenses. In the next few weeks we will issue a new price setup due to the above changes the business has taken.

Also, I have been in Asia for most of April in talks with manufacturers, shipping companies and others in the chain of importing goods. The news, which I am sure most of you know by now...is prices are going up and have been going up during the past few months. A big increase in steel.

We must factor all of the above increases and will issue a price increase adjustment, no later than May 28.

Please note: our price quotes to U.S.A. buyers always include ocean freight, broker fees, customs charges and duties...your one payment covers all costs... except inland freight.

One payment makes it easier for our customers to know their cost of the goods.

Due to the changes in buyers orders, the EMGO Atlanta USA warehouse has been increasing our Atlanta stock, more backup stock on mirrors, filters, controls etc.

DON'T LET TIME RUN OUT!

Every 2 weeks we have a container arriving in our Atlanta (U.S.A.) warehouse from Taiwan. We also have shipments from Thailand, and India arriving on or about each month. Our Atlanta warehouse maintains almost one million dollars in inventory and on water in route to the warehouse each month. This is back up stock that covers your need for fast turn over products. No long delivery time from Asia... We have a lot of stock available in Atlanta.

CALL TODAY... SELL THE NEXT DAY.
