**A guide to new products
& information**

**Winter 2010
January- February**

2010 What is ahead?

All signs point to an upturn. Inventories have been worked down at the wholesale and retail levels... since the "Indy Dealer Show" there is an awakening in the motorcycle market. Dealers are now ordering their Spring stock.

Prices going up

Since the start of 2010... price increases have started coming in from manufactures in Asia. New security rules on import shipments... are adding extra costs to all imports. Other costs... a little bit here and there keep adding to the costs of the products.

Also, add the devaluing U.S. dollar and this all means an expected increase of 5% to prices sometime in the next few months.

EMGO is increasing our production runs...advancing our shipment dates to get ahead of the date prices will go up.

Place your spring stock requirements today... Lets all work together to make 2010 the upturn year we all need.
