PASSPORT

April-May-June 2011

2011 The first quarter Jan/Feb/Mar... has proven to be a strong start for the year. The slow business of the past 2 years... is now history.

The second quarter Apr/May/June is running a little bit slower, but still far better than in 2010.

As we have advised our customers, June is turning out to be price increase month. A combination of a 10% decrease in the value of the U.S. dollar against Asian currencies over the past 12 months plus the higher costs of raw goods, transportation and labor has put the cost of goods from our suppliers on a course going up.

Another factor, the earthquake, nuclear meltdown and other factors in Japan, which is a major supplier of filter paper and glue for filters is putting a strain in delivery of air and oil filters. So, please allow extra time for delivery.

We are trying to get all our price increases (adjustments) finished between June 24 and June 30. Oil filters have already been adjusted up 6% effective June 17th.

Please note: we have over 100 suppliers in 5 countries... almost all raising prices at different rates so it will take a few days. We are working with our suppliers to hold down the increases, so the give & take adds to the delays in getting to correct price adjustments.

We are sorry for any confusion or disruption this will cause, but we are no longer able to absorb the price adjustments we (EMGO) have had during the past months. Thank you for your business and hope you understand our position on this matter.

NEW 6-VOLT COIL 24-72454

6-Volt dual lead coil. This coil is the same as our 24-72451 except it is a 6-volt rather than 12 volt coil. The HT leads (spark plug wires) are 590mm (23 1/2") long and the mounting bolts are 90mm (3 9/16") apart center to center. Primary resistance 1.09 ohms. Secondary resistance 13-14 ohms

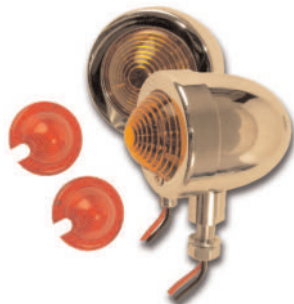

NOTE: This coil is not an oem fitment/replica.
One potential use is when an old British twin is converted from points ignition to electronic ignition and dual plugged.
