Powersports

A guide to products and information

PASSPORT

JAN-FEB-MAR 2011

All signs point to 2011 as the turn around year the motorcycle trade has been looking for. Aftermarket products will be a leading purchase as motorcycle owners get their rides ready for the upcoming season.

EMGO has had to adjust up production runs... shipments from suppliers for March, April & following months due to the upturn in orders. The season is starting on a strong movement towards a good year... will you be able to move with the increased sales?

There is a dark side of the business upturn... increased prices from our manufacturers every week one or two of our suppliers advise our office... due to increases in their cost of raw goods... they must raise their prices.

We will do the best we can, where possible to provide a lead time of upcoming price increases. This will allow you to place an order before the prices goes up... **Please note:** some suppliers advise EMGO the increase is effective today.

We urge you to look over your needs and order today... keep in mind... many items require 30 or 60 day lead times. Order today...
