PASSPORT

Summer 2010
May-June-July

2010 What is ahead?

EMGO sales in the north american market (United States-Canada-Mexico) in 2010 are running about the same as 2009. The difference is orders and shipments from the Atlanta warehouse have increased... while direct drop shipments to customers (Asia direct to buyers) have decreased, this means more smaller value shipments to our distributors.

At the end of August EMGO will review our 2010 orders/shipments/sales to north american distributors... work up our distribution plans for 2011 as how to improve our service, work better with our EMGO distributors and new additions to our line.

During the next 2 months (Sept-Oct) is when I travel to Asia, sit down with our suppliers and work out new products, production runs.

Prices: Prices are going up, we are already having increases coming thru and also the costs of all services such as ocean freight, customs paperwork, government fees and the decreasing value of the U.S. dollar all point to higher prices in the coming months.

Questions: IF you have any questions or suggestions on new products or services please let us know now, so we can work on them for the 2011 season. Due to current business conditions some suppliers have had to cut staffs, hours and production runs... so planning is very important. Place your 2011 stock order as soon as possible after Sept. 6 (Labor Day-USA)... for shipment to your warehouse from Taiwan in December, January or February. Lock in prices and shipments... order right after the first week in September.

Suzuki

Spark Plug Wrench

84-04120

**5/8" Socket is 3/8" drive or 19mm wrench.
Small overall design allows access
to the spark plug in tight confines
of engine designs.
A handy 19mm hex machined
into one end of socket can be
used to hold the front axle
of many machines
facilitating front axle removal.**

**Each on a point of
sale slide pack**

IEMIGGO®

**NEW PRODUCT
UPDATE**

Triangular Spotlamp
Available in chrome or black

66-84166 Chrome

66-84168 Black

Popular style back in the 60's.
Very similar to our 66-84164
but with a single filament bulb
(H3 12v/55w) and a shallower
more rounded shell.
